

Practice every day 20-30 minutes
 learn the names of the strings and how to tune from one
 string to another as shown in your handbook.
 Practice all strum patterns with different chords.

Keep your 3rd finger in the same position when changing between these chords.

← Use the 3rd finger as a slide or pivot finger when changing from G, C add⁹, D, or Em⁷ to an A major chord or A⁷ chord.

← Use this diagram as a warm-up exercise. Start with your 1st finger on the high E string at the 7th fret. Play each note with the designated finger across the fretboard.
